## ▣ Electrical

---

An electrical apprentice assists with maintenance and repair of electrical equipment, motors, and pumps. At the end of this course, an apprentice should be able to read and interpret circuit diagrams, construction drawings, and service and repair manuals.

OSHA 10 training is provided during this course. The course can be completed in 16 weeks.

Average hourly salary is \$13-\$18 dollars per hour. This is an excellent introductory course into Davidson-Davie's curriculum Industrial Systems Technology program.

## ▣ HVAC

---

Students learn basic refrigeration cycle, thermostat wiring, superheat and subcooling, and sequence of HVAC operation, with an emphasis on safety protocols. Upon completion, students will be able to identify basic components of the HVAC system as well as pressure, temperature relations, installation, and copper tubing and soldering.

This course can lead to technician helper and commercial installation installer jobs. Technician helpers average starting wage is \$13-15 per hour. A commercial installer can earn \$40,000-50,000 a year.

This is a great introductory course for students to transition into Davidson-Davie's HVAC curriculum program, which leads to a certificate and diploma.

This course takes 16 weeks to complete.

## ▣ Nursing Assistant I

---

Nursing assistants and home health aides are among the fastest-growing, most in-demand health care jobs in the nation and provide dependable, flexible employment. Nursing Assistant training is an extensive, state-approved course that includes instruction in classroom theory and supervised clinical experience. Students must be 17 years of age on the first day of class, pass criminal background checks and drug screens, and provide documentation of required immunizations in order to meet the requirements of hospitals and other clinical sites.

Nursing Assistants hourly range is between \$13-\$17.

As a CNA, you can take the next step and become a nurse, another profession that is expected to see future growth.

This course takes 16 weeks to complete.

## ▣ Phlebotomy

---

Phlebotomists are in high demand. This profession is a great entry point into the healthcare field. This course prepares individuals to obtain blood and other specimens for the purpose of laboratory analysis. Course work includes proper specimen collection and handling, communication skills, and maintaining patient data. Phlebotomy average salary is \$14-\$19 per hour. Most phlebotomists work in hospitals, physicians' offices, or labs.

This course takes 16 weeks to complete.
